

Nothing compares to that classic taste of coke. I Love Cherry Coke... ABSOLUTELY ADDICTED TO COKE... but I still prefer PEPSI, SORRY!!! Mainly because the Pepsi can is blue... other than that they taste a like...but very different at the same time...Coke is one of my favorite drinks. Outstanding! I have been drinking Coke for over 50 years and its my only vice anymore, lol! (Diet Coke now). Love it! I would like to try kosher Coca-Cola its made without corn syrup. i LOVE Coca-Cola!!! My favorite drink for years! And great for ppl my age(11)!!!! Coca Cola taste good. But coldrinks are said to be "slow poison"... better to drink juice. I have enjoyed an Ice-Cold Coke in such remote places as Katmandu, the Base Camp @ Everest, The Golden Triangle, Angkor Wat, East Berlin circa 1985, walking around Red Square, 25,000 feet above the The Straits of Gibraltar (Arabic: طارق جبل مضيق ) getting ready to jump out of a perfectly fine aircraft. We had a choice of landing on the Moroccan side or the Spanish side of the Straits. 6 votes for Spain.....4 votes for Morocco (my choice). Causing obesity and diabetis but tasty as hell. Coca cola is the best because it has more fizz to it and it not flat like the other ones. I love to get up in the am and slam a coke. Very lucrative business. Great ice cold in a bottle, but tastes funny from the can! I use to love the stuff. Actually my family (when I was a kid) would go to the food lion and just buy whichever one was cheaper, coke or pepsi. Though my mother is still to this day addicted to just coke, I am not. I don't like the acidic coating that it leaves on top of my teeth. But I am a Diet Pepsi fan myself, and not even for the whole "zero calories" thing, just because I think it tastes best. But just so you know...I have traveled the world and I can say that Coca Cola is everywhere! I never drink Coke, only Diet Coke (regular and lime flavored). The brand is huge and I hate Pepsi. Thumbs up! What we get used to will destroy us out of habiy. Is there still an adult out there who would give their child such a drink and condition his/her mind to believe that it's ok for them? Shame on those who do that. They won't be around to see their child's teeth fall out or diabetes and obesity develop and all of the other illnesses that result from sugar-water ingestion. My taste for Coca-Cola has ebbed and flowed throughout my life. Sometimes I cant stand the flavor, while other times I cant get enough. Currently Im living through the latter as I find the taste quite enticing recently. However, in a few months all of that will change and I wont drink it again for a number of years. Coke or Pepsi? Coke! I love the taste of Coke and feel that the drink stays carbonated longer than Pepsi. I always feel that Pepsi taste completely flat, and I have never felt that way with a Coke. Coke has a bit of a spicier flavor when compares to Pepsi, and this is what I think makes it taste great! THAT'S PROBABLY THE FIRST COLA EVER! DID YOU KNOW THAT WHEN IT WAS FIRST MADE IT WAS GREEN. Coca-cola is a nice bevarge to drink. It is good i say. But it has to compet with its rival PEPSI. For that it has to do more sales promoting techniques and to reach this drink to "rural areas" also. Then it will be at its Peak. I actually prefer coke than pepsi. The reason is the gas satays longer than pepsi. I love pepsi and coke, but when you open pepsi the gas just goes away if you bought on a 2 liter. Everyone here knows people originally loved Coca-Cola because they added cocaine to the mix? tastes good, but try drinking water now and then too.... or Wild Turkey 101.
